8 Tips and Troubleshooting

8.1 Common Situations and Solutions

Situation	What To Do
I cannot see any surveys on the Surveys page.	Surveys only appear if (1) they are currently Open, and (2) they are linked to an event where your attendance was recorded. Check with your administrator if you believe your attendance was not marked.
The Register button is greyed out.	Registration may not yet be open, may have already closed, or the event may be in the past. Check the registration open and close dates shown in the event detail modal.
I submitted a survey but want to change my answers.	Answers cannot be changed after submission. If you made a mistake, contact your administrator.
I cannot find an event I am looking for.	Use the Search bar at the top of the Events page and type a keyword. You can also clear any active filters by clicking “Clear all” below the filter dropdown.
My profile information is wrong after onboarding.	Go to the Profile page and update your information there. Changes take effect immediately after saving.
I do not see a survey I was told to answer.	Make sure the survey’s open date has passed and its close date has not yet been reached. Also confirm with the event organizer that your attendance was marked.
The dashboard shows no upcoming events.	You may not have registered for any upcoming events yet. Go to the Events page to browse and register.
“Contact number must be 11 digits.”	Enter exactly 11 digits with no spaces, dashes, or country codes (e.g., 09171234567).
“Password must be at least 8 characters long.”	Use a longer password. A mix of letters, numbers, and symbols is recommended.
“New passwords do not match.”	Make sure the Confirm Password field is typed exactly the same as the New Password field.

8.2 General Tips

- **Register for events early.** Events have a capacity limit. Once full, no further registrations are accepted.

- **Check your dashboard regularly.** This is where the most important information is summarized.
 - **Use the search bar.** It is the fastest way to find any event, guideline, or survey.
 - **Look for red error messages.** When filling out a form, errors appear directly below the field that has a problem. Fix those first before trying to submit again.
 - **Greyed-out items cannot be interacted with.** If a button or card appears faded, it means the action is unavailable (e.g., a survey you already completed, or an event whose registration has closed).
 - **Your identity information is private.** Information entered in the Identity tab of your profile is never shown publicly and is used only for anonymous institutional reporting.
